

Expanding on their success, the airport received another grant for \$149,997 in FY 2013-14 to purchase rubber mulch for an additional 0.8 miles of fence line. This supplemental funding allowed the Airport to apply rubber mulch at the site's dog park and other areas.

Years installed: 2011, 2013 and 2014

Savings: \$25,000 a year in avoided product and labor costs

Benefits:

- Dust suppression
- Wildlife deterrent
- Increased safety for planes
- Less herbicide application
- Supported a local manufacturer of recycled tire products

Manufacturing process: California waste tires are shredded and the metal is removed with magnets. The recycled tire bark is then colored, packaged, transported and installed.

*A wide variety of high-quality, proven products are made from California's recycled tires.
For more information, and a list of vendors, visit CalRecycle online at
